## **9" AHD WIRELESS MIRROR MONITOR DUAL CAMERA REAR VIEW KIT**

**Model Number – R901W-2D**

### **Short Description**

*9" AHD (Analogue High Definition) colour LCD mirror monitor includes our IP69K rated Wireless IR Night Vision wide-angle AHD 1200 TV Lines Super High Resolution, 140 degree weatherproof reversing camera. AHD is double the TVL clarity of standard reversing cameras which makes this system not just better but special. This wireless single camera reversing kit comes with the wireless camera and a 7" colour AHD monitor which clips to an existing rear view mirror or can replace it altogether. Our AHD wireless full colour super night vision IR camera is Ultra High quality. The wireless signal strength is far superior to others as well.*

### **Description**

Hidden Camera Surveillance 7" colour AHD wireless mirror monitor is a little out of the ordinary in the sense that it looks like a standard interior reversing mirror but will display the wireless camera live. In some instances, the internal mirror (if your vehicle has one) can be rendered useless with no rear view anyway, or perhaps blocked by a trailer, horse float, caravan, or something else. In this case our 7" wireless receiver monitor, clips over the existing mirror or simply replaces it.

*Ideal for cars, buses, trucks, forklifts, agricultural vehicles, heavy machinery, tractors, trailers, caravans, semi-trailers, horse floats and so much more. When the vehicle ignition or accessories is switched on/off so too will the wireless reversing security camera kit.*

AHD is double the resolution of standard 600TVL reversing cameras and that alone makes this system unique. Please note HCS also offers Dual Split Screen and Quad view AHD Cabled and Wireless Reversing Camera Systems as well (some with recording) and with various monitor sizes ranging from 5-9".

This particular wireless camera system includes our 7" LCD AHD 2.4Ghz wireless mirror monitor receiver plus 2 x wireless 12V AHD reversing cameras. Wireless camera range is 200m + depending on obstacles between the camera and receiver. That's not to say that any obstacle will prevent wireless camera transmission, that's not the case. In most circumstances the distance between the camera transmitter and receiver is minimal anyway. The LCD colour Super HD 2.4Ghz wireless receiver monitor supports selectable resolutions from 720P, 960P and 1080P AHD & CVBS.

It's important to understand that not all cameras and monitors are the same, particularly when used in mobile situations. Our 10G rated IP69K cameras and monitors are solid state meaning unlike others, they won't fail due to constant mobile vibration, and we offer a 2 year fault replacement warranty.

### Is this reversing camera system easy to install?

Other than mounting a few brackets its straightforward although you do need to connect the monitor to vehicle power. In this regard yes DIY if you feel confident otherwise a local auto electrician will have it completed quickly with quality assurance. The camera is 12V powered and in this regard most auto electricians will use the vehicle tail light wire to power the camera or other means.

Please note cameras and monitors ought to be installed by a licensed auto electrician. Accidental damage caused by an unauthorised installer is not considered warranty.

### Is IP69K waterproof?

Products that carry the IP69K rating are ideal for facilities where hygiene and cleanliness are critical, as they are proven to be durable and resistant against water, chemicals, high pressure, and high temperatures associated with demanding cleaning and OH&S measures. This camera is 10G shockproof and weatherproof but no submersible.

### Specifications

7" Monitor AHD *Mirror Monitor Wireless Reversing Camera kit*  
Monitor supports wide voltage DC 9V to 35V (camera is 12V)  
Wireless Digital anti-glare LCD AHD Mirror Monitor

Colour system is auto  
Operating temperature -10C to + 65C  
IR Night Vision with IR cut filter  
10G shockproof  
Removable and semi rotational monitor U bracket  
Camera rating IP69K  
Audio microphone - Optional  
1200TVL UHD camera provides high quality crystal clear view (better than standard HD 600TVL)  
Ideal for cars, buses, trucks, trailer, caravans, agricultural vehicles, and heavy machinery  
Built-in Light Sensor  
Removable Monitor sun Visor  
Various Menu Language support  
6M power cable and cigarette lighter power adapter included

This 7" colour TFT LCD *wireless vehicle monitor & camera reversing kit* consists of an ultra-high definition colour LCD mirror screen offering high visual resolution. There's no point to having an Ultra-High definition 1024 x 600 monitor if the camera/s are lower quality than the monitor. The 2.4Ghz LCD *Mirror monitor receiver* connects to vehicle power 9V to 35V power and we provide both a 6M power lead plus a cigarette lighter adapter if that makes it easier to permanently or temporarily connect the monitor.

Hidden Camera Surveillance *wireless mirror monitor reverse camera kit* has a voltage overload and reverse polarity protection to ensure the hardware isn't damaged by fitting mistakes. The metal alloy U bracket (pictured) allows for the monitor to be dash or roof mounted whilst the bracket tilt allows for that perfect flush view. Stylish front panel touch button control with built-in auto light sensing, this monitor will auto dim by night to avoid glare.

Specifications	
<b>Model 901W-2D</b>	<b>Wireless Dual Camera Mirror Monitor Kit</b>
Description	CVBS/AHD Chipset
Image Device	AHD
Horizontal Resolution	1200 TV lines
Lens	2.8mm
Lens Angle	140 Degree wide angle
Infrared LED light	18 LEDs (auto night active)
IR Distance	15m (IR Cut Filter)
Camera IP Rating	IP69K
Technical	
TV System	PAL/NTSC
Mirror Image Switch	Yes
AHD LCD Monitor	9" mirror screen
Camera Input	2
Monitor Support	720P/960P/1080P & CVBS
Monitor Resolution	1024 x 600
Shockproof	10G
Colour System	Auto
Wireless Receiver	2.4Ghz Approx. 200m
Scanning System	2:1 Interlace
Sync. System	Internal
Vertical Frequency	50Hz / 60Hz
Minimum Illumination	0Lux (Infrared on) 0.1 Lux (day) / F1.2
Video Output	1.0vp-p, 75Ohm
AGC	Auto
S/N Ratio	Better than 48dB
White Balance	Auto
Electronic Shutter	1/50(PAL) ~ 1/100,000 Sec
BLC	Auto
Casing	Metal alloy
Camera Power	DC12V
Operating Temperature	-10°C~65°C , RH95% MAX
Monitor Dimensions	25.8 (L) x 13.3 (W) cm

### Kit Includes

- 1 x 9" AHD Wireless Digital Mirror Monitor
- 2 x AHD IR and 1200TVL wireless colour reversing cameras
- Rotational alloy camera mounting bracket
- U bracket
- Screws
- User Manual
